

Model the Scenario

Create a model and write a multiplication expression for each part.

1

Emily has 3 fruit baskets in her kitchen. There are 2 green apples and 4 red apples in each basket.

Model :

a. Total number of **green** apples

3	×	2
---	---	---

b. Total number of **red** apples

3	×	4
---	---	---

c. Total number of apples

3	×	6
---	---	---

2

Jake buys 2 packets of candies. There are 6 chocolate candies and 5 fruity candies in each packet.

Model :

a. Total number of **chocolate** candies

	×	
--	---	--

b. Total number of **fruity** candies

	×	
--	---	--

c. Total number of candies

	×	
--	---	--
