

Multiply Your Way

Write the strategy that you would use to find the given multiplication fact and then find the answer.

- Skip Count/Finger Model
 Commutative Property
 Distributive Property

Sample Answer:

$9 \times 4 = \square$

I used this strategy :

Show your work:

$$9 \times 4 = \square \times \square$$

$$= \square$$

$3 \times 5 = \square$

I used this strategy :

Show your work:

$6 \times 8 = \square$

I used this strategy :

Show your work:
