

## Fraction Equivalence Using Decomposition

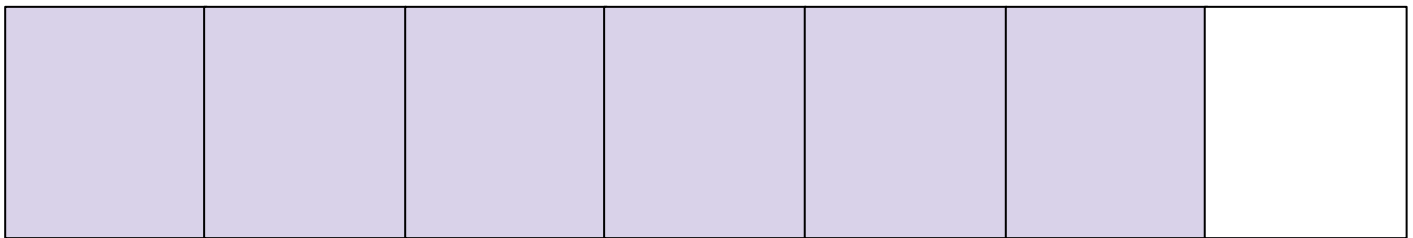

Find the equivalent fractions using decomposition.

Find the equivalent of one-third by decomposing it into fifteenths.

$$\frac{\boxed{1}}{\boxed{3}} = \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

Find the equivalent of six-sevenths by decomposing it into twenty-eighths.

$$\frac{\boxed{6}}{\boxed{7}} = \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$
