

Identify the Fraction

Draw lines to show how the object should be divided and write the fraction for each part.

James and his 3 friends want to share the cheese equally. Draw lines to show how James should slice the cheese and write the fraction of cheese each of them will receive.

Fraction for each part = $\frac{\square}{\square}$

Jessica and her 5 friends want to share the pizza equally. Draw lines to show how Jessica should slice the pizza and write the fraction of pizza each of them will receive.

Fraction for each part = $\frac{\square}{\square}$
